PONG LAUNCHER
WHAT YOU NEED
STEP 1: Cut the cup 2-3 inches from the top. Depending on the sturdiness of your cup, you may want to stack two cups together.
STEP 2: Tie a knot at the open end of the balloon and cut off about a half inch from the closed, round end.
STEP 3: Stretch the balloon over the top of the cup where the lip is. Secure balloon to cup with Duct tape if fit is loose.
That’s it! Put your ammo of choice (ping pong ball, pom pom, marshmallow) in the cup, pull back on the outer knot, aim, and release!
