

Active Kids and Happy Teachers. It's EZ with:

Two EZ ways to count (and time) laps.

Whether your students run before school, during recess, as part of a PE Class, during a brain break, or at a fundraising event

– **EZ Scan**® makes counting laps EZ!

Runners scan their QR code using the EZ Scan® 2 app (can be downloaded to multiple Apple iOS and Android devices). Sync the devices and the laps are sent to EZ Tally®, the online database that stores and organizes the information.

Track each students' progress and know when they have earned awards with EZ technology.

EZ Scan® + ***Timing***!

With **EZ Scan**® + **Timing**, you get all the great features of EZ Scan® - but the time for each lap is displayed and recorded.

You receive the total time for each student's run along with splits.

Try EZ Scan® or **EZ Scan**® + **Timing** **FREE** for 14 days.

Just go to ezmileageclub.com to get started.
